

Stay organised.

If you're feeling your best, you're more likely to deliver your best. Use this interactive planner to **make sure you're balancing your revision time with prioritising your wellbeing.**

Use the hourly schedule to track how long you spend on revision and how long you spend on wellbeing (such as exercise, socialising and mindfulness).

The orange sections will help you to track the time you wake up and go to sleep, your mood each day and the total time you spend on wellbeing.

At the end of the day, count how many hours you spent revising and compare it to how many hours you dedicated to wellbeing to make sure you are balancing your study and rest time.
